Work Experience

Web Developer

Nex Bridge Global-Yangon
December 2024 to March 2025

Worked as a full-stack developer, primarily using PHP and Laravel, to build and maintain web applications. Gained extensive experience in real-world development processes, including backend logic, database management, API integration, and frontend design. Developed a strong understanding of web security best practices, authentication, and data protection. Hands-on experience with deployment, performance optimization, and troubleshooting in production environments.

IT Support

Maha Agriculture Private Co., Ltd-Yangon
November 2023 to February 2024

I worked as IT support who provided technical support for hardware, software, and network issues, ensuring smooth operation for users. Assisted in troubleshooting system errors, configuring devices, and maintaining IT infrastructure. Gained experience in diagnosing and resolving technical problems efficiently, improving user productivity. Developed skills in customer support, ticketing systems, and security best practices, ensuring data protection and compliance.
